

## **AP Computer Science Principles Summer Assignment (2020 - 2021)**

**Mrs. Paczewitz**

[laura.paczewitz@littlerockchristian.com](mailto:laura.paczewitz@littlerockchristian.com)

Students,

I'm looking forward to seeing each and every one of you in class on August 19th. The following summer assignments will allow us to be ready for everything we need to get completed this year, which include 2 projects (called Performance Tasks) that have to be submitted to the AP College Board this coming year, and content that will be on the multiple choice exam in May.

NOTE: Your AP Exam score will consist of your 2 Performance Task scores and your mc test score.

**There are 2 parts to this summer assignment; both are due BEFORE class 8/19:**

**#1 - Binary representation - videos and complete worksheet, quiz on 8/19**

**#2 - The Internet is For Everyone - slides presentation**

**Please join my google classroom to see and complete your summer assignments:**

- Class code: crkdxah
- These instructions and all materials will be posted to the google classroom
- All submissions (worksheet and slide presentation) will be submitted to the google classroom
- You may post questions for everyone in the class to see.
